

PAVEMENT OBSTACLE COURSE

15 mins

Pencil, paper

Design your obstacle course

Aim: To plan what elements you would like to include in your pavement obstacle course

Instructions: Using a pencil and your imagination plan your obstacle course out on paper. Think of things you might want to include: hopscotch? walk the plank? sharks where you can't step? You can check out some ideas by visiting: <https://whatmomslove.com/kids/sidewalk-chalk-ideas/>

Extension: Create multiple different obstacle course designs based on difficulty. By having a mixture of easier and harder course designs will make sure that everyone can take part!

30 mins

Chalk

Complete your obstacle course

Aim: To complete your pavement obstacle course!

Instructions: Using your pre draw plan to help you, chalk your obstacle course onto the pavement outside your house. Complete your obstacle course. How many times can you do the course? Are you getting faster at completing it each time? Do you need to make any changes to make it easier or harder?
